WORK EXPERIENCE

10/2023 - Present

Working Student as Data Analyst

Experteer GmbH - Munich

- Collecting, cleaning, and analyzing job market data using SQL, Python, and MS Excel to support machine learning model development
- Researched and classified 600+ companies and subsidiaries, maintaining accurate corporate structures and up-to-date database management
- Collaborated on cross-functional projects with the product team to define candidate expertise and match talent to job opportunities, delivering projects 50% faster than expected
- Developed a Python-based HTML email generation function, increasing efficiency by 90%, and enabling automated candidate data sharing with headhunters

01/2021 - 10/2023

Working Student as Data Clerk

United Parcel Service - Munich

- Entering data using our IT systems (OPSYS) and reviewing customs documents for completeness and accuracy
- Checking and inspecting shipments for export to third countries for the completeness of the shipping document, proper packaging, and hazardous goods labeling
- Sorting and recording national and international express parcels using a scanner

01/2015 - 08/2016

General Dentist

Private Praxis - Chile

- Diagnosing Oral Health Issues: Conduct thorough examinations, including X-rays and other diagnostic procedures, to identify dental problems such as cavities, gum disease, and oral cancers.
- Performing Dental Procedures: Execute a wide range of treatments, including fillings, crowns, root canals, and extractions.

- Collaboration with Dental Team: Work closely with dental assistants, and administrative staff to ensure a seamless, high-quality patient experience.
